

Introducing the new

BI-FOLDING

Door

- To suit widths from 2000mm to 6000mm
- Up to a maximum height of 2300mm
- Up to 7 panes wide
- Over 20 different folding options
- Doors fold back almost flat against each other
- Internal only handles for added security
- Bottom track can be concealed for reduced threshold height
- Bevelled, Chamfered or Ovolo profiles
- 70mm or 63mm profiles
- Tested against the requirements of PAS23

It is now possible to fabricate bi-fold doors from Spectus' profiles. The doors can be manufactured in all profile styles - and in sizes from 2m to 6m wide and 2.3m high. The doors are offered in over 20 folding options and can feature up to 7 panes, which fold almost flat to maximize the open space.
