RIDE OVER PATIO DOOR

Whatever the setting, the Spectus Ride Over Patio Door will add grace and style to homes both traditional and modern. It is ideal for use with porches and conservatories.

New handle and locking system giving improved looks and security - two pairs of outward opposing hooks prevent the leaf from being lifted out of its frame.

Post co-extruded sashes for easier, quicker and more cost effective fabrication.

Outer frame can be welded or mechanically jointed.

Suites with Sightline 70.

Can be coupled with all window systems.

Single leg knock in bead for easy glazing.

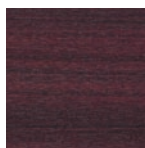

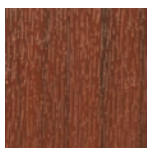

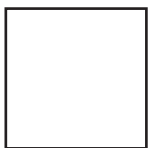

Available in a range of height and width options.

Kits are non handed - bar lengths are available.

Mid rail designed for letterbox making it ideal for porches.

Trickle ventilation option allows a controlled flow of air into the room whilst the door is shut.

Range of finishes
white, rosewood on white, rosewood on brown, mahogany on brown, mahogany on white, light oak on tan, light oak on white.
